

## Objective

Passionate weaver of philosophy and technology seeking a role that leverages my unique expertise to drive meaningful change on a global scale

## Education

Valleyview  
Secondary School  
2008-2013

## Skills

Ubuntu  
Word Processing  
Spreadsheets  
HTML/CSS/Javascript  
VueJS  
ExpressJS  
PostgreSQL  
Sequelize  
TailwindCSS  
Nginx  
Git  
GPT4  
Midjourney

## Projects

### Music Daddy

- Full stack web app built from the ground up
- Vue3 + Quasar frontend, ExpressJS + PostgresJS backend
- JWT based auth following all best practices.
- Discogs API integration and Wikipedia web scraping for populating album data,
- Full end to end testing coverage with Jest

### Bees Plus

- Similar to Music Daddy in technology, Bees Plus also features a hand built, custom CMS system for clients to manage their content.

### Chatbot Prompt Library

- Uses Git based, serverless CMS, allowing for custom content on a fast, static site with minimal overhead.
